

# BLUE RIDGE RACE LAB, LLC

— Fuel, Oil & Tire Analysis —

February 9, 2022  
Mr. Davey Sammons  
Indoor Auto Racing

Subject: Race Tire scans on samples submitted on February 7, 2022 Indoor Auto Racing. Blue Ridge Race Lab LLC received four samples for Race Tire scans on tire samples identified by evidence bag number/date code and type of tire. The samples were received in good condition in sealed evidence bags.

#### Summary of Race Tire Analysis:

BRRL LSID	Customer ID	Tire ID	Results
22-0008	1354479/9F6V	Hoosier H1N3	Conforms to the benchmark
22-0009	1354480/H9T5	Hoosier H1N3	Conforms to the benchmark
22-0010	1354481/8F6T	Hoosier H1N4	Does not conform to the benchmark
22-0010Dup	1354481/8F6T	Hoosier H1N4	Does not conform to the benchmark
22-0011	1354484/8F6T	Hoosier H1N4	Conforms to the benchmark

The sample LSID-22-0010 1354481/8F6T Hoosier H1N4 was found to not conform to the manufacturer submitted benchmark and was analyzed in duplicate to confirm the original scan result, which is our laboratory protocol. The duplicate result confirmed the original result, that this sample does not conform to the manufacturer submitted benchmark sample. I contacted the manufacturer with the date code of this sample and was advised to use Hoosier H1N4 1293633 as the benchmark for this sample. I have analyzed this benchmark sample and enclosed the tire scan of Hoosier H1N4 1293633 for comparison with the non-conforming tire sample. I appreciate the opportunity to provide tire analysis for your speedway.

Sincerely,

Kim Johnson  
Blue Ridge Labs, Inc.
